ConneXionONE Accessories – USB Conference Phone

CONNEXIONONE™

The CHAT™ 50 personal speaker phone is a mobile audio peripheral that connects to a wide variety of devices and provides crystal-clear, hands-free audio communications.

It provides unmatched full-duplex capability, which allows users to simultaneously speak and listen without audio cutting in and out. It also provides high-quality audio playback for music, gaming and other sound files.

The CHAT 50 can be used in a variety of ways, and connects to the following devices:

Laptops, PCs, or Macs — for use with:

- Internet telephones,
- VoIP softphones
- Web conferencing applications
- Instant messaging with audio chat
- Audio playback with media players, such as QuickTime, RealPlayer, Windows Media Player

Telephones* — for hands-free, full-duplex conversations

Cell phones — for hands-free, full-duplex conversations

Desktop video conferencing devices — for hands-free, full-duplex conversations

The CHAT 150 USB connects to PCs for rich, full-duplex audio communications, and can be used with VoIP softphones, web collaboration applications, instant messaging, and any other application requiring two-way audio.

Connects to laptops and PCs — for use with:

- VoIP softphones
- Internet telephones,
- Web conferencing applications
- Instant messaging with audio chat
- Audio playback with media players, such as QuickTime, RealPlayer, Windows Media Player

Featuring ClearOne's trademark audio processing performance, CHAT 150 delivers unmatched full-duplex capability for crystal-clear communications. It includes three built-in microphones for full 360-degree pickup.

The CHAT 150 is a perfect addition to the office or conference room for greatly enhanced collaboration.

The CHAT 150 also connects to the following devices:

Enterprise telephone handsets* — for hands-free, full-duplex conversations

Video conferencing systems — for hands-free, full-duplex conversations
